Strong Finnish family company

- We import and distribute hydraulic parts, pneumatics and industrial products from the best European manufacturers and brands
- We design, tailor, and assemble industrial and hydraulic hoses, hydraulic units, valves, and much more.

KEY NUMBERS 2025

- Revenue 30 M €
- Inventory value 18 M €
- Main warehouse 9000 m²
- Staff ca. 100
- Founded in 1990
- 11 locations
- 2 companies, Salhydro & Hydromarket

Superior delivery capability arises from the strengths of the business

1

Wide distribution network

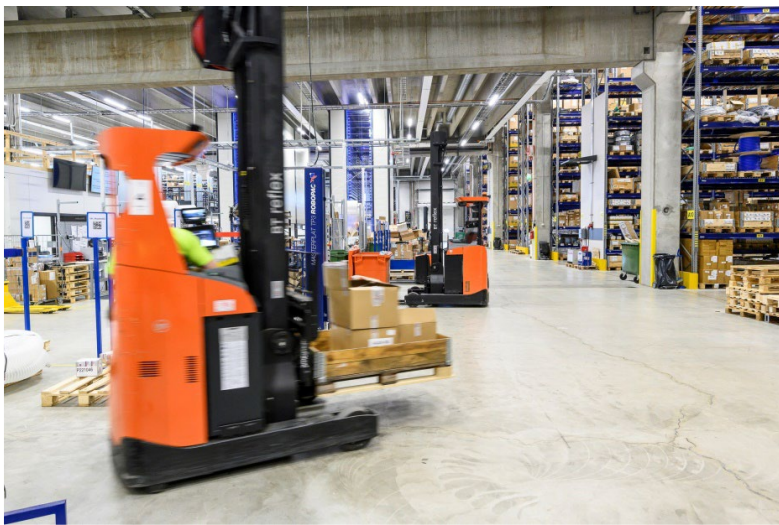

Our locations in Jyväskylä, Kuopio, Lahti, Nurmijärvi, Oulu, Pori, Tampere & Turku, and three Hydromarket-service centers in Helsinki ja Kerava guarantee quick availability of products.

Our nationwide network of retailers complements our network of locations, making us easily accessible.

2

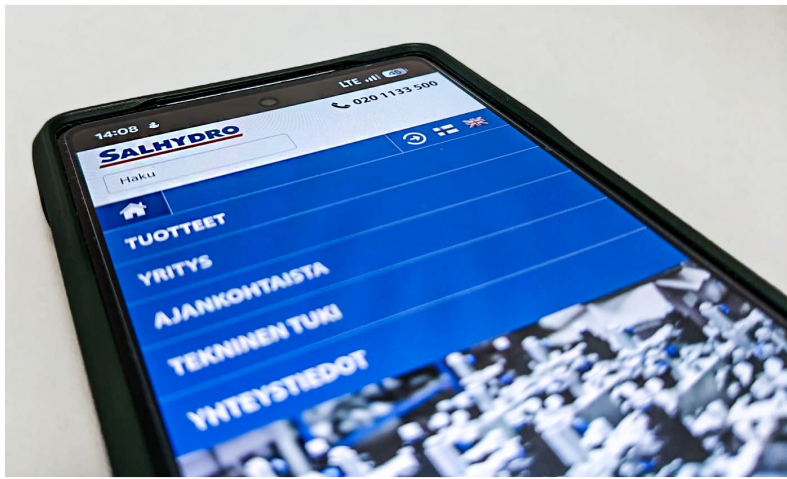

Fast deliveries

- As a rule, we deliver our customers' orders the next day from the day of the order.
- Even large orders can be shipped on the same day if they are placed by 2 p.m.
- Smaller orders can be shipped if the order is placed by 4 p.m.

3

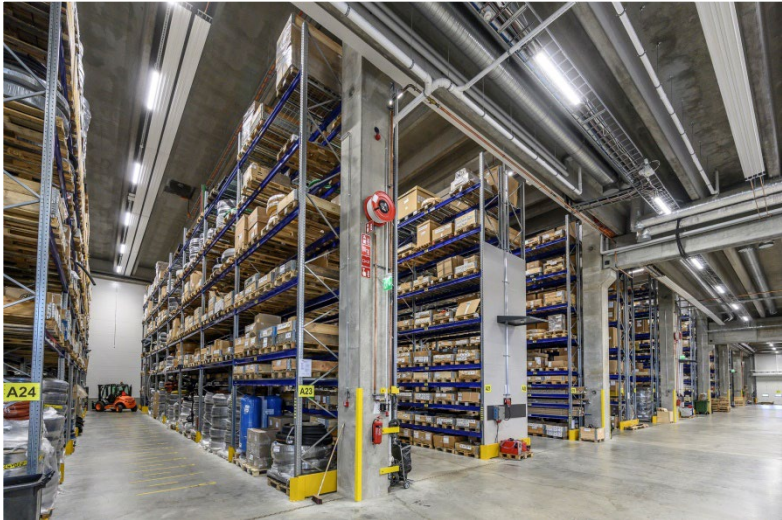

Omnichannel

- As a Salhydro customer, you get price and availability information immediately, regardless of the order channel.
- You also have access to our call center, where you can speak directly with our experts, either by phone or email.
- You can check availability and pricing info on our website 24/7.
- Our regular customers have the option of using a mobile device with an app specifically developed for easy restocking of shelves.

4

Product range

Delivery is a matter of honor for us. To ensure sufficient delivery capacity, we stock more than 40,000 products for immediate delivery. Our stock is largest in the Nordics in our industry.

We import products from more than 200 European manufacturers. Our product range is constantly being expanded with new and high-quality products.

5 Services

We participate in our customers' product development process as needed. We help to choose cost-effective solutions that create a competitive advantage for our customers' business.

We use modern tools and have the necessary knowledge to combine many different areas of expertise.

We make small customizations quickly and deliver ready-made hose assemblies or hydraulic assemblies as complete packages according to the customer's wishes.

6 Brands

We sell, import and stock only
international quality brands.

7 Future

The expansion of our facilities, which were completed in 2021, will be finished in 2026. Our warehouse, which covers more than 12,000 m², has the largest selection of products in the Nordic countries in our industry.

In addition, our goal is to expand our service network to cover all of Finland's largest cities

We have started to promote our brand in Baltic trade shows

We want to be the largest supplier in our industry in the Nordic countries.

Our selection
includes more
than 40,000
products from
200 European
quality brands.

1

Hydraulic components

- Directional control valves
- Pumps
- Motors
- Cylinders
- Flow dividers
- Control systems
- Cetop- and cartridge valves
- Accumulators, tanks, filters
- Pressure switches

2

Hydraulic hoses and fittings

- Hoses and hose assemblies
- Pipe fittings
- Adapters
- Quick couplings
- Auxiliary valves
- Ball valves
- Hydraulic shop machinery and tools

3

Industrial equipment & tools

- Oil and lubricant handling
- Chemical and fuel handling
- Hose reels
- Pumps
- Central lubrication parts
- High pressure tools
- Industrial cleaning

4

Pneumatics

- Tubes and fittings
- Compressed air pipelines
- Cylinders
- Grippers
- Valves
- Compressors
- Service units
- Filtration and drying
